

The city and the province have ordered a boil water advisory for Wood Buffalo. Water should be brought to a rapid rolling boil for one minute.

If there are children in the home, place the pot on the back burner to avoid scalds. Boil only as much water in the pot as you can comfortably lift without spilling. Discard all ice made previously and disinfect the ice cube trays. Make ice using cooled water that was previously boiled.

**Boil all water for:**

- Drinking
- Cooking
- Making baby formula
- Making ice
- Washing fruits or vegetables
- Brushing teeth
- Pets

Tap water is safe for bathing.
